## OMEGA OIL

### DESCRIPTION

A blend of linseed oil and non-GMO\* maize germ oil (corn), non refined, first pressed, and of “human food” quality.  
A source of essential fatty acids and natural antioxidants.  
Permits a well thought out supply of Omega 3, 6 and 9, beneficial to health.

\* Guaranteed to <0.1%

### INDICATIONS

Diversifies energy sources in the concentrate ration.  
Increases the energy value of the ration.

Use of this product is of particular interest in the following situations:

- Lack of condition
- Pathological disorders related to, or aggravated by high cereals rations:
  - › behavioural problems (nervousness),
  - › muscular disorders (chronic myopathies such as “tying-up”),
  - › gastric ulcers,
  - › etc.

5 L

25 L

### DIRECTIONS FOR USE

Adult horse (500 kg) :  
Give 50 to 100 ml per meal. Mix well into the feed.  
Shake well before use.

For ponies, administrate a daily dose in proportion to the animal's liveweight.

\*Free from Naturally Occurring Prohibited Substances (NOPS) in accordance with the regulations of racing codes, FEI, FFE and SHF.

Liquid

## COMPOSITION

First pressed linseed oil, non-GMO\* virgin maize germ (corn germ) oil, natural tocopherols.

*\*Guaranteed to <0.1%*

## ANALYTICAL CONSTITUENTS

Oils and Fats.....	99.9%
of which: Saturated fatty acids.....	≈ 11%
Unsaturated fatty acids.....	≈ 87%
Omega 3 (Linolenic acid) .....	34%
Omega 6 (Linoleic acid) .....	31%
<i>Omega 3 / Omega 6 ratio = 1.1</i>	
Omega 9 (Oleic acid).....	22%

## PROPERTIES

First pressed linseed oil is very rich in Omega 3, whilst the non-GMO\*, virgin maize germ oil is an important source of Omega 6 and natural tocopherols (antioxidants).

This blend of non-refined vegetable oils, first pressed and of “human food” quality, is rich in essential fatty acids. It allows a well thought out supply of Omega 3, 6 and 9, beneficial to health.

Feeding oil permits a reduction in the glycaemic index of cereal based concentrate rations. Furthermore, it assists the intestinal transit and soothes inflamed mucous membranes in the upper digestive tract (oesophagus, stomach and small intestine).

## CONSERVATION

Store in a dry place, away from light, at room temperature.

Shelf life : 12 months.

Use within 30 days after opening.

MAJ : 09/06/22
