

MASH

DESCRIPTION

Flake mix to distribute for after an intense muscular effort, a stressful/traumatising event, or on the day of a competition in endurance horses.

PRESENTATION & CONDITIONING

14 kg

Expiry date : Bag : 6 months

Container : 4 months

COMPOSITION

Flaked barley, Flaked oats, Flaked maize without GMO (<0.9%), Dehydrated carrots, Flaked peas.

WHY REVERDY MASH?

- **Reconstitution glycogen reserves depleted during effort**
 - easily assimilated energy sources
- **Appetence**
 - dehydrated carrots, flakes

RECOMMENDED DOSES

1 measure REVERDY (2 L) = 0.8 KG
500 kg adult horse

| ACTIVITY | DAILY RATION | | VOLUME OF WATER TO BE ADDED (L) |
|--|--------------|-------|---------------------------------|
| | KG | L | |
| Intensive muscular effort (following a race or a strenuous work session) | 0.8 - 1.2 | 2 - 3 | 1 - 1.5 |
| After an exhausting event (foaling, etc.) | 0.8 - 1.2 | 2 - 3 | 1 - 1.5 |
| During an endurance competition | 0.4 - 0.8 | 1 - 2 | 0.5 - 1 |

The recommended amounts of MASH are given before adding water.

COMPOSITION

ANALYTICAL CONSTITUENTS

| | |
|----------------------|------|
| Humidity..... | 12 % |
| Crude proteins | 10 % |
| Crude fats..... | 3 % |
| Crude fibre | 7 % |
| Crude ash | 2 % |

CARBOHYDRATES/KG

| | |
|--------------|------|
| Starch | 47 % |
| Sugars..... | 3 % |

ESSENTIAL FATTY ACIDS/KG

| | |
|-------------------------------|-------|
| Linolenic acid (Omega 3)..... | 0.5 g |
| Linoleic acid (Omega 6) | 12 g |

AMINO ACIDS/KG

| | |
|------------------|----------|
| Lysine | 3,950 mg |
| Threonine | 3,450 mg |
| Methionine | 1,750 mg |

RATIONING VALUES/KG

| | |
|------------------------------|---------|
| UFC..... | 0.97 |
| DE (Digestible Energy) | 12.8 MJ |
| Digestible protein..... | 69 g |

SPECIFIC RECOMMENDATIONS

These events often lead to heavy sweating in the horse, it is advisable to add REVERDY ELECTROLYTES to the ration of MASH.

Likewise, these situations cause stress to the horses' digestive system, it is recommended to add REVERDY INTESTINAL FLORA to the MASH ration.

For endurance horses: The evening following the event it is advisable to feed no hard feed, only hay and/or grass, no hard feed (only hay and/or grass, with ad-lib water).

THE REVERDY QUALITY

Raw ingredients selected for their nutritional qualities

- ✓ **No molasses**
- ✓ **No GMO (<0.9%)**
- ✓ **Cereals of French origin**
- ✓ **Naturally lysine rich protein sources**

DIRECTIONS FOR USE

These recommendations are based on the requirements of a 500 kg horse.

We advise following these steps in the preparation:

- Horse body condition, weight and workload;
- Mix 2 parts of Mash to 1 part of very hot water;
- Cover the mixture and leave for about 10 minutes.
- Let cool before distributing.

Precautions for use

Respect the recommended doses.
Provide punctually.

Elaborated and manufactured in our factory.
