## DIRECTIONS FOR USE

These recommendations are based on the requirements of a 500 kg horse, fed ad-lib quality hay with free access to a pure salt block and clean water.

The amount fed must be precisely adjusted according to:

- Horse body condition, weight and workload.
- Horse stabling and climatic conditions.
- Quantity, quality, and type of forage fed daily.

It is recommended to divide the daily ration into 3 feeds.

### Warnings:

**Feed a maximum of 3 litres per feed.  
Distribute the recommended rations in 2 feeds minimum.**

Engineered and manufactured in our factory.
